A Cure for Eczema.

My baby had Eczema so bad that its head was a solid mass of scabs, and its hair all came out. I tried many remedies but none seemed to do any permanent good until I used De Witt's Witch Hazel Salve. The Eczema is cured, the scabs are gone and the little one's scalp is perfectly clean and healthy, and its bair is growing beautifully again. I cannot give too much praise to De Witt's Witch Hazel Salve.-Frank Farmer, Bluff City, Ky. In buying Hazel Salve look out for counterfeits. COLONEL JOHN D. LITTLEJOHN, Editor of The Grayson Tribune, is a candidate for Delegate from this District to the National Convention at Chicago. Mr. LITTLEJOHN'S services to his party certainly entitle him to this compliment, and he may get it, as there's no salary attached. If it were otherwise, the other fellow would be given the place. Editors generally do not get anything that anybody else wants.

THE Congress and the President don't agree, and it looks very much like the country is on the side of Congress. An item of \$190,000 was inserted in the General Deficiency Appropriation Bill, for payment of mileage to members, on the idea that there had been a "recess" between the called and regular sessions of this Congress. But when the matter came to a vote. Congress very properly decided that there had been no "recess," the present session beginning immediately after the gavel fell closing the called session, and the \$190,000 was therefore stricken out of the bill. The President, it will be recalled, insisted on renominating Dr. Wood, white, for Major General in the Army, and Dr. CRUM, colored, for Collector at Charleston, S. C., claiming them as "recess" appointments. The fact that Congress has now declared officially that there was no recess in which these appointments could have been made, it's right up to Teddy to tell how old Anna Mariar is.

Pending an official reception in Washington a few nights ago an order was issued to certain military officers to wear "Special Uniform A," which is noted chiefly for its superabundance of knotted gold lace. THE total cost of the big St. Louis show will exceed \$50,000,000, and the management expects that the gate receipts for the six months will realize that amount. It is quite likely that the management will be somewhat disappointed -unless it charges about \$2 per for admissions. The Chicago World's Fair, which also was open six months, had 27,529,400 visitors, including men, women and children-and other dead-heads, -and it is hardly to be expected that St. Louis, with her present railway facilities, can handle a much greater number, if indeed she can handle that many. On Chicago Day alone there were 761,942 admissions,considerably more than the entire population of St. Louis; -and the total receipts for the six months were only \$14,117,332-which looks like \$3 and six-bits alongside of \$50, 000,000.

CAPTAIN DREYFUS AND CALEB POWERS.

Ohio State Journal.

A striking parallel may be drawn between the case of Captain Dreyfus of France and that of Caleb Powers of Kentucky. Dreyfus was the innocent victim of race prejudice gone mad. Powers is the victim of mad partisan prejudice. Sentence was inflicted on each by men who hated the prisoner, not for what he had done, but for what he was.

But the parallel cannot be continued. Dreyfus is assured of absolute vindication by the very men who once sought to seal his doom. Powers lies in prison awaiting the gallows. Race prejudice has receded from the extremity of its madness. Partisan prejudice has not.

Tendency of the Times.

Rejected.

The tendency of medical science is toward preventive measures. The best thought of the world is being given to the subject. It is easier and better to prevent than to cure. It has been fully demonstrated that pneumonia, one of the most dangerous diseases that medical men have to con tend with, can be prevented by the use of Chamberlain's Cough Remedy. Pneumonia always results from a cold or from an attack of influenza (grip.) and it has been observed that this remedy counteracts any tendency of these diseases toward pneumonia. This has been fully proven in many thousands of cases in which this remedy has been used during the great prevalence of colds and grip in recent years, and can be relied upon with implicit confidence. Pneumonia often results from a slight cold when nodanger is apprehended until it is suddenly discovered that there is fever and

difficulty in breathing and pains in the chest, then

it is announced that the patient has pneumonia.

Be on the safe side and take Chamberlain's Cough

Remedy as foon as the cold is contracted. It always cures. For sale by J. Jas. Wood & Son.

Captain Jefferson Dickerson, who died Monday at his home in Ft. Wayne, Ind., at the age of 88, was the oldest river Captain in this section. He was born in Maysville. A WOMAN'S COMPLEXION. It is rank foolishness to attempt to remove sal

lowness or greasiness of the skin by the use of cosmetics, or "local" treatment, as advocated by the "beauty doctors." The only safe and sure way that a woman can improve her complexion is by purifying and enriching the blood, which can only be accomplished by keeping the liver healthy and active. The liver is the seat of disease and blood pollution. Green's August Flower acts directly on the liver, cleanses and enriches the blood, purifies the complexion. It also cures constipation, biliousness, nervousness, and induces refreshing sleep. A single bottle of August Flower has been known to cure the most pronounce andd distressing cases of dyspepsia and indigestion. New trial size bottle, 25¢; regular size, 75¢. At Henry W.
